happy singh adventures

One you apply the sound fix to this game it's a great space game used to play it years ago and having played through the single player campaign again on the steam version it was well worth playing again.. Corey Taylor is the best. Buy it c:. Absolutely fantasitic game absolutely IMPOSSIBLE TO PLAY WITH THE CONSTANT STEAM NOTICES blocking your view and distroying the pleasure and your score.. If you like mobile games, but wish they were less mobile, then this game is for you, I guess.. The game always crashes when its trying to measure doremys smug level.. This is a great game, I love the puzzles and the twist at the end. Short, but sweet.

Promised a Mac version back in 2013 but still no Mac support. As someone who works on both Mac and Windows it's frustrating not having your software running across devices.

As for the actual UI, it's unnecessarily complicated for simplest of tools.. game feels like everything is half done was ok with a friend but wouldnt play it alone. A pretty solid immersive sim ruined by extensive technical issues.

I played this on release and I somehow managed to dodge the myriad technical issues that many people encountered. Coming back to it now, I'm getting them in spades. The game crashes every time I get near a story-critical mission, so RIP Mankind Divided.. is a good game. THIS. IS. ♥♥♥♥♥ DON'T BUY IT!. It's just... Bad. It's like... What do you do in the game? Shoot around like crazy expecting to kill something? I just can't see the fun in that.. Tea is serious business.. I'm wway to tired to write a real review, but if you are looking for something fun, inventive and unique, then give this game a shot.

You also get to fling enemies in the air and shoot at them while they tumble back to earth.. Really simple game whose complexity, price, and mechanics ought to align with a mobile platform rather than being put on pc. Horrifically overpriced. Shouldn't be selling for more than \$0.99. Play Reigns instead, which is priced appropriately and better fleshed out. First game I am ever requesting a refund on.. Buy only if you want to lose money, the music track sucks balls aswell. Is there a way to remove it?
